UMK435 Loop Handle

Less weight and more power are two of the great features of Honda's Generation II Brushcutters.

INTRODUCTION

MORE TORQUE

Boasting the latest in Honda's ultra-compact, lightweight, 4-Stroke engines, the UMK435 Loop Brushcutter delivers superb power and more torque than ever before.

It does this via a Generation II, GX35 mini 4-stroke engine, proving yet again that Honda leads the world in revolutionary engine technology. And as you've come to expect from a Honda, the UMK435 Loop starts first time, every time - year after year.

ENVIRONMENTALLY-FRIENDLY

Honda prides itself on its superior engineering, meaning that the UMK435 Loop produces low emissions, less noise and smoke than its 2-stroke counterparts.

The UMK435 Loop runs on regular unleaded fuel, so you'll never have to mix oil and petrol again.

Given the cost of petrol and 2-stroke oil, the UMK435 is easy on your wallet, easy on the environment, and great for your bottom line.

PERFORMANCE FEATURES

The UMK435 Loop Brushcutter makes tough jobs easy with a 4-tooth metal blade plus a heavy-duty manual nylon line head.

It features full 360° "any-side-up" operation, for use and storage in any position. Its ultra-compact, lightweight design means it's easier to handle and will keep you working longer with less fatigue.

With its auto-decompression, electronic ignition and anti-flood primer system, it will deliver power, performance and reliability every time you need it.

WARRANTY

The UMK435 Loop features a 4-year Domestic Warranty, for any job around the house, designed to put your mind at ease.

With a powerful 35cc engine, the UMK435 is a contractor's dream machine, and as such Honda provides a 3-year Commercial Engine Warranty and 12-month Commercial Frame Warranty.

Throw in the support of a 400+ strong authorised Honda dealer network, and you've got yourself covered.

EXTRAS

The UMK435 Loop also comes standard with safety goggles and a single operator harness.

PERFORMANCE/USABILITY

Starts first time, every time with Honda's famous one pull easy start system

Ergonomically designed easy-grip loop handle

Comfortable to use, solid drive shaft with unique anti-vibration engine mount

BRUSHCUTTERS

The unique mini 4-Stroke engines deliver power, performance and reliability that no 2-Stroke can match
